VIM Video Input Module for Horizon

The **VIM-1** and **VIM-6** modules comprise of **4 x RCA connectors** mounted on a PC back panel for feeding **composite video** or **s-video** to the **Horizon** or **Twinfinity** graphics adapters.

The **VIM-1** is supplied with a single connector **ribbon cable** which will allow the VIM to be connected to a single graphics adapter.

A **VIM-1** is included with every Horizon 2SVW and Horizon 2SVW-PRO.

The **VIM-6** is supplied with a six connector **ribbon cable** enabling upto six graphic adapters to be connected simultaneously to the VIM module.

BNC Versions of the VIM are also available:

VIM-1-BNC

VIM-6-BNC
